

PdX Tower

MODULAR TOWER SYSTEM

- Fits through doorways and corridors
- Professional tower system available in modular packs to build the tower up to 5.6m platform height
- One-piece fold out snap-frame with simple, one-handed lock and release operation, for quick and easy set up
- Quick and safe assembly - 2m build intervals between each tower size
- Sturdy platform with trapdoor for easy access to each level
- Strong end frames with 250mm rung pitch for easy and safe climbing
- Smooth slot-in spigots to prevent tilting when the end frames join together
- Heavy-duty braces for added strength and rigidity
- Innovative toe board system with no clips – removes the need for toe board clips reducing the amount of loose components
- Adjustable stabilisers provide secure grip on uneven ground
- Suitable for Indoor and Outdoor use
- Certified to the latest EN 1004-1:2020
