Platform 61cms

Platform 1.00m

Platform 1.25m

Platform 1.75m

Fully erect Platform 2.00m

Without wheels: Height 83cms. Width 81cms. Depth 42cms.

Teletower is one of the most exciting and innovative products to be developed for the construction industry in years!

Its unique patented telescopic operation means it's very easy to transport, store and erect. Teletower offers a safer, more efficient and is a lower-cost alternative to fixed scaffolding, podiums and other mobile access towers, thus an ideal tool for the hire industry.

Providing 4 metres of working height, from van to insitu in 3 minutes or less!

- Telescopic mechanism allows 5 adjustable platform heights from 1m to 2m (Working heights from 3m to 4m)
- Large folding aluminium work platform (1.4m x 0.7m) with climb through hatch
- Fully erected in under 3 minutes, saving down time & man hours
- Can be transported in a small van or estate car
- Available in Aluminium and GRP (non conductive)
- Single person operation
- Minimal product footprint for ease of transportation & storage

- Operates as a podium with low level fixed height options of 33cms & 61cms
- Comprises only two parts - tower and platform (no more leaving parts in the yard!)
- Integral stabilising legs with 5 optional positions & lockable castors
- Optional toe-boards
- Integral telescopic hand & knee rails
- Integral platform stabilisers
- Conforms to EN1004

Comfortably fits in small van
