Alufix

Aluminium concertina ladder

- Requires no space - ideal for very small ceiling openings min. 600 x 500 mm.
- Swing clearance 47 cm
- Existing trapdoor is used - the ladder is fastened directly onto the opening frame by means of the wooden plate supplied.
- Comfortable and safe operation - delivered with spring controlled suspension system which keeps the ladder in position.
- Easy and quick installation - without the need for special tools.
- Maximum comfort and security - wide non-slip treads. Tread width is 340 mm and the tread depth is 78 mm.
- Space saving - the ladder requires no space when it is folded. Requires only limited landing space.
- Unique robustness - tested to 200 kg.
- Max working load 100 kg.

Alufix	Floor-to-ceiling height (cm)	Min landing space (cm)	Max landing space (cm)
9 treads	219 - 246	74	144
10 treads	246 - 273	83	150
11 treads	273 - 300	92	156
